What is Safeguarding?

Scan for more information on Safeguarding

Safeguarding is about helping students to keep themselves safe and to prevent harm happening to them. It's also about responding to concerns about alleged and suspected harm and putting in place plans to help and protect those who cannot protect themselves. Everyone has the right to live their lives free from violence and abuse.

If you are worried about something that is happening to you or to someone you know, please talk to us. If we are concerned about your safety, we may need to share this information with others, but we will always tell you first. At Southern Regional College, all members of staff are trained in the protection of children, young people, adults at risk and adults in need of protection to ensure that they are fully aware of their responsibilities in this area. The Student Safeguarding Officers have undergone additional training for these roles.

ICT Benefits

College Virtual Learning Environment (CANVAS)

The College has embraced 'blended learning' which combines face-to-face learning carried out in normal classroom sessions along with on-line learning. The 'CANVAS' Virtual Learning Environment (VLE) is the platform used to deliver both online and blended learning programmes.

Key features of the Virtual Learning Environment include:

- online communication between staff and students
- provision of e-books and e-resources with 24/7 access
- collaborative working with other students
- published learning materials
- online resources
- student guidance

You can access CANVAS from the College's homepage. Select the Students link at the top right hand side. This presents the Student Dashboard with options including logging into Office 365 (MS Office) and

Student Email

You will be given a College email address to use as part of your studies. This email address will be used as the primary email communication if your lecturer or the College needs to contact you. The email address given to you will be in the following format. UserID@students.src.ac.uk (replace UserID with your own UserID).

On College Desktop Computers, a shortcut to your email account will appear on your desktop when logged onto a College PC. If prompted to logon use SRC\UserID (replace UserID with your UserID) plus your password.

See 'Logging onto a computer in the College for the first time' for instructions on changing your password.

Software for Students

Links are included in the IT Services section on the College VLE for software

that you can download and use on your own computer. Licenses for these software products are only valid while you are a student at SRC and must be removed (and may not work) once you have left SRC.

Software includes Office 365 Microsoft Office applications (Outlook, Word, Excel, PowerPoint), Autodesk, SolidWorks and others as they become available.

To install Microsoft Office software, look at the top right-hand corner of the main Office 365 logon page when you log onto Office 365 – look for Install apps. Note this is only for your personal device; all SRC devices will already have Microsoft Office software installed.

Office 365 Microsoft Office applications

Common applications used within the College are Microsoft Outlook and Microsoft Teams. Mobile Apps are also available for Outlook and Teams, and you can install the Apps on your mobile or tablet from your normal App store. Use your College issued username and password to connect to these Apps.

Logon and check you have access to your email and Teams as these will be key applications your tutor will use to communicate with you.

Due to differences in mobile operating systems and browsers we would advise you to try your first logon on a Windows or Apple PC/Laptop using the Edge or Chrome browser, to verify access. You can then try accessing from your mobile device (on mobile devices use of an App is preferred for enhanced user experience).

Printing

You will be given a quota of print credit at the beginning of each academic year. You can purchase further print credit from any of the Learning Resource Centres.

Note: If you enrol on additional College courses, additional print credit will have to be purchased (by you) through the LRC

Saving Work

There are two ways to save your work while at the College. These are:

1. OneDrive personal storage space

With Office 365 you have use of OneDrive with 1Tb of storage space. This can be accessed from within the College or remotely so is useful for working on files in either location. Students are encouraged to use this for general file storage.

2. H: Drive (internal College storage space)

When logged onto PCs at College you will have a set amount of storage space which appears in the file explorer as a H: drive once logged onto the College network. All students are initially allocated 250MB of storage space on their H: drive (some classes will have a higher initial allocation). If the H: drive space becomes full, you should check and delete any files that no longer need to be stored.

If further storage is required, this can be arranged through your tutor and your H: drive may be checked for any non-course related material.

Both OneDrive and H: drives are backed up regularly. We discourage the use of USB devices, especially as your only storage option, as they are unreliable. USB devices can be used as another backup.

Getting Started at the College – ICT

Scan for more information on ICT facilities at SRC

While you are a student at the College, there's some important things you'll need to be aware of. Some general guidance on ICT is available by scanning the QR code.

Acceptable Use Policy

As a student you will be given a student account which enables you to access and use computers on the College network as well as options for Wi-Fi and remote access and Microsoft Office 365 – Outlook, Teams, OneDrive etc. Use of the IT facilities is subject to the conditions within the Acceptable Use Policy and UK law. All students will need to agree to follow the College's Acceptable Use Policy (AUP) prior to using any ICT equipment and systems.

There is a lot of specific guidance in the AUP itself – it's intended to keep you safe while you learn. The AUP is available on the website.

In addition, the College has its own relevant guidance and requirements (including e-mail and internet use, health and safety and Student Code of Conduct). It is essential you adhere to these policies. If you don't understand any item, please find out more from a member of staff.

Bring Your Own Device (BYOD) Policy

If you use your own personal device for accessing College systems it's important that you restrict who can access your device and ensure that operating systems are supported with all updates applied to them

and any apps/software. Having supported anti-malware software with regular updates should also be in place on these devices (Desktop, Laptop, Tablet or Mobile Phone).

Using a student account means that you are aware of and accept SRC published policies and procedures, including the Acceptable Use and Bring Your Own Device (BYOD) policies. All usage is monitored and recorded including internet usage. The College's policy on BYOD is available under ICT policies on the website.

WiFi – Eduroam

The College's WiFi network is Eduroam. This network allows students from participating institutions (including SRC) to obtain internet connectivity across College campuses and when visiting other participating institutions.

To connect to Eduroam at SRC, search for wireless networks and select it. You will then be prompted for a username and password. Use your full SRC e-mail address UserID@students.src.ac.uk (replace UserID with your own student ID). Enter your password and you should get connected. Trust any certificates if prompted.

Username (UserID) and Password

New students

Your UserID and instructions will be sent to the email you registered with. A password will be sent via text to the mobile number you used when you registered. Each student's username (UserID) is made up of an 8-digit number plus @students.src.ac.uk which is also your College email. For example: 30004567@students.src.ac.uk

Note:

- keep your password confidential and change it regularly. Change it from the default password issued (see: logging onto a computer in the College for the first time)
- do not share your User ID and password with anyone
- use a unique password and not one that you use elsewhere

User IDs and passwords help us maintain individual accountability for internet usage.

Existing students

If you are a returning second or third year student, you will use the same account (please note you won't get an email or text message with logon details as you will already have these). Your tutor will be able to reissue these details if required.

Logging Onto a Computer in the College for the First Time (Change Your Password)

Take the following steps:

- press Ctrl, Alt and Delete
- enter your username and password and click OK

You should change your password from the default issued by your tutor. Do this on a College computer by:

- logging in - using your current username and password - press Ctrl, Alt and Delete
- click 'change password'
- you will then be asked to enter your old password and enter your new password twice
- click OK

Logging Onto your College Account Remotely (Change Your Password)

You can do this remotely by logging into your College Office 365 account. Do this by selecting the Students link on the website homepage banner at the top right hand side. This presents you with the Student Dashboard. Log into Office 365 (MS Office) and then:

- click on your name on top right hand corner of the screen
- select 'view account'
- select 'change password' and follow the instructions on the screen

Please remember:

- passwords are case sensitive
- passwords should be complex, with at least one of each of the following; uppercase letter, lowercase letter,

- number and a special character
- minimum length is 15 characters
- we recommend the use of 3 random words incorporating the above complexity rules eg drive7maroon\$Floods - This is just an example, do not use this password
- do not use a password you use or have used elsewhere

Multifactor (MFA) or 2 Factor Authentication

Multifactor Authentication (MFA) is where you will use an Authenticator App on your mobile to verify your logon.

Use of MFA and Self-Service Password Resetting (SSPR) are required on setup to protect your account. Full details are provided on our website.

You will need MFA enabled to access resources from outside the College including Office 365, CANVAS and remote software access.

Please remember:

1. You are responsible for your account and network activity originating from it
2. It is essential that your password is kept secret at all times and that you do not let anyone else use your username. Logoff every College computer any time you leave it unattended

Security Tip! Don't use the same credentials (emails and passwords) on multiple web sites. If one gets compromised, they all are! SRC recommends you use a unique password for your College account which you don't use for anything else.

Anti-Virus

All College computers run up-to-date anti-virus software. You must ensure

that your device is fully patched, up to date and has antivirus software which is automatically updated. If you repeatedly use media (e.g. USB pens) that contain viruses, your access to College ICT resources may be restricted or withdrawn and disciplinary action taken.

Security Tip! If you use your personal device (BYOD) to access any College systems you must:

- use an anti-virus product and keep it up to date
- ensure your device is updated regularly with any security or application updates. This applies to all device types
- if using a shared device (e.g., PC, iMac or Laptop), use a separate local account to logon to this device to restrict access to your College work. You can't do this on for example a tablet like an iPad, so you should take great care if you have to use these. Use a passcode to help reduce access
- if possible, encrypt your device

These will help reduce compromise and exploitable vulnerabilities on your device.

Guidelines for ICT Usage

Services provided by IT can change. Please refer to the IT Services section on the College VLE for current guides for various ICT activities.

- No food or drink is allowed in any computer room.
- Please treat all ICT equipment with respect, remembering that others must use it as well.
- Please leave your workstation and the area surrounding it as you would hope to find it.
- Ensure you log off your computer when you are not using it.
- Connection of any external device

(including laptops) to the College physical network or electrical supply is strictly forbidden. Please contact ICT Services if this is required.

- USB pens, CDs and DVDs may be used for backing up work and transferring work to and from College, but only if you are certain that any external computer to which the device is connected has an up-to-date anti-virus package running. Be aware that all these media types are prone to failure. Thus, we strongly recommend using OneDrive for transferring work when required.
- Do not give your username or password to anyone. College staff do not need to know your password.
- ICT equipment can only be moved by a member of the IT Services team.

Internet Advice (E-Safety)

The Internet has transformed the way in which we learn, do business, and socialise. It is also a place that provides cover for those whose intent is to harm and exploit young people. Behind the mask of anonymity, pedophiles, extortionists, and organised gangs of criminals from any part of the world can reach young people. They make young people feel safe. They become their “friends”. They use images of other victims to create a false identity and gain young people’s trust. In short, they groom young people. Home computers, laptops, tablets, and smartphones, used inappropriately, are this generation’s version of the dark alleyway in which a menacing stranger lurks.

You need to be aware of the dangers that you face online. In some instances, young people are targeted by strangers who attempt to blackmail them over images they have been tricked into taking. Other cases involve private messages between friends being forwarded to others or a user posting

a picture of themselves on a website or social media with low privacy settings.

We understand that this is a worrying message, but we do believe that it is warranted. We take great care to ensure you are safe whilst attending the College, but it is essential that you also exercise that same care and vigilance to protect yourself online.

If you need any assistance or advice on this matter, please do not hesitate to speak to your tutor or alternatively seek assistance through Student Services.

Protect Yourself Online

1. Check your privacy settings - make sure that you are only sharing posts with friends and trusted sources.
2. Would you want the world to see this? Social media is public - do I want the world to see this? If not, stop and delete.
3. Review your ‘friends’ lists – delete anyone who you have never met or do not know in person. They could be a fake profile trying to get information.
4. Don’t send anything inappropriate – if you are being asked to send content that you aren’t comfortable with, talk to an adult you trust about the situation.
5. Image shared of you – if a photo of you has already been shared and you are concerned, then talk to an adult you trust.

Most importantly

NEVER KEEP IT TO YOURSELF

If you are made to feel uncomfortable online or are being threatened, don't keep it to yourself. Talk to your family, or a member of staff at the College.

If you have shared an image, the sooner you tell someone, the sooner it can be taken down/ deleted or made much more difficult for anyone to find.

Staff at the College or adults you trust won't judge or treat you any differently. They just want to help.

Give us your Feedback

Scan for more information on Giving Feedback

Southern Regional College is committed to providing you with the best possible service which we can only do if you give us your feedback.

Feedback

Tell us if we do something well or if we can do things differently to improve. You will be asked to complete an online learner survey during the year and this feedback is very important to us.

Student Council and Students' Union

You can also provide feedback through your class representative and/or become the representative for your class and be their voice. Each September class representatives are elected to take forward issues about each campus at the Student Council meetings. Meetings take place three times each year. Upcoming meeting dates can be found on the College Student Engagement SharePoint page.

You could also become a Student Union Officer. Each campus can elect seven officers who will organise events and activities in matters that you want – so you decide your student experience! Officers will also speak with other students to hear about student experiences and work with the Student Governor to run campaigns to make improvements.

Details on all these events and how you can get involved are on the Student Engagement SharePoint page.

Focus Groups

Focus groups generate ideas and provide feedback from as many learners as possible.

Further Education Students and Trainees

Each semester, your Personal Tutor will hold a class focus group to allow you to discuss items which matter to your class. The Curriculum Area Manager will also meet with class representatives to get feedback and ideas about your course, so let your class representative know your thoughts and opinions.

Higher Education Students

Each semester Higher Education students will have Staff/Student Consultative Committee meetings with Course Coordinators. This provides opportunity for feedback on any issues you have encountered on the course. The Curriculum Area Manager will hold a subsequent focus group to follow up on any issues raised.

Student Complaints

If you have a complaint, please speak to your Personal Tutor or any course tutor to attempt to resolve the issue in the first instance. If this is not possible, or if you are not satisfied with the response you have received, you can contact the Curriculum Area Manager or Head of Faculty for your course.

If, following this process, you feel that your complaint has still not been satisfactorily

resolved, a further two options are available to you:

1. You can raise an informal complaint by emailing the College's Corporate Compliance Manager on feedback@src.ac.uk or by calling on 077 2520 0069; or
2. Where you believe the matter to be of a more serious nature, you can raise a formal complaint by completing a 'Customer Complaints Form', which is available on the College website.

Information provided on the College website explains the process the College will undertake when managing complaints. The College's 'Complaints and Compliments Policy' is also accessible on the College website, and this provides information in respect of the appeals process and the role

of the Northern Ireland Public Services Ombudsman in handling complaints about the College. For HE students, the policy also provides contact details for the Competitions and Markets Authority (CMA). This policy can be accessed on our website.

Student Compliments

If you feel that the College has exceeded the expected standard of service, or you wish to provide a compliment or positive feedback, you can complete a 'Customer Compliments Form' which is accessible on the College website or available at Campus Reception. This form can be accessed on our website

Alternatively, you can email the College's Corporate Compliance Manager on feedback@src.ac.uk
